

PAEDIATRIC TRIALS NETWORK AUSTRALIA'S

ORAL PRESENTATION ABSTRACT SUBMISSION FORM

ANNUAL TRIALS DAY

The Paediatric Trials Network Australia (PTNA) brings together paediatric researchers from around the country to facilitate high quality research with a focus on collaborative paediatric clinical trials.

PTNA's objectives are to:

1. Increase the quality and quantity of investigator-driven paediatric clinical studies
2. Improve the Australian operating environment for paediatric clinical trials sponsored by industry
3. Provide a platform for advocacy for collaborative clinical research for paediatrics in Australia
4. Deliver a sustainable network

The aims of the PTNA Trials Day are to strengthen and develop collaborative research across PTNA members, showcase paediatric research efforts, encourage new research and new researchers and to foster a collegiate environment for learning, education and feedback.
